I'm trying to make sure we understand the MW sampling results on Figure 1. It would be useful to know the units (which appear to be PPM) and the notations (3 and 3B) which typically reflect lab comments.

Thanks.

I do not have a table showing results, and I'm not sure that one has been created. If we have a table, I'll try to get you a copy before our meeting.

Jacquie:

Thanks for these. With respect to the spread sheets regarding the sampling, do you have the tables showing the results of the data collected? Thanks.

Subject: Additional Data for Wedron Meeting today

David and Doug –

Attached is some additional information for our meeting this afternoon. The groundwater flow map and the list of analytical data collected by EPA at the site were approved for release yesterday. Please note that residential addresses in the list of analytical data have been deleted to protect privacy information. I'm also providing a recent map that show detections of contaminants in the monitoring wells installed at the site. The Illinois Railway Voluntary Site Assessment report (attached) also contains information that we will likely discuss this afternoon. I will have copies of the maps at our meeting.
